

SKY TRACE

Web-based monitoring solution
for industrial trace heating application

Use

Avoid process downtime.
Find hidden energy cost and save money.
Identify and solve mysterious problems.
Confirm heating cable quality and maintenance schedule.

Specification

Trace heating circuit analysis by table and site map.
Control panel and circuit location can be customized after the completion of installation dashboard for controlling and monitoring of individual circuit.
Monitoring temperature, load current, leakage current and sensor status.
Energy consumption statistics - Top 10 circuits with higher consumption.
Top 10 alarm count per circuit.

Features

Web-based monitoring and control solution for trace heating system.
Saving energy and labor costs up to 70%.
Proactive maintenance analysis.
Prioritized alarm 1 to 9.
Heating cable performance analysis.
Excellent security.
Remote control via VPN to LAN network.
Integrate to client own automation system.
Extendable to 'SKTRACE analytics' via cloud service.
Mobile user interface.
Monthly report.
